Fodder Mixing Wagon

Verti-Mix 70

Verti-Mix 70

- best mix with up to 7 m³

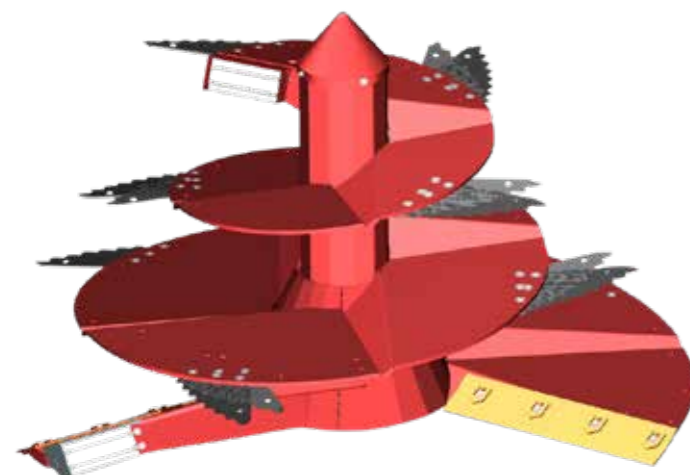

The Verti-Mix 70 complements the Strautmänn product portfolio in the field of compact single auger mixers. With a mixing volume of up to 7 m³, up to 50 dairy cows can be optimally fed with feeding once a day

Weighing device enables exact feeding.

Vario² mixing auger in stepped flight design for homogeneous mixtures

Optional 250 mm extension for volume increase from 6 to 7 m³

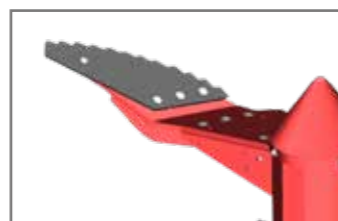

Side discharge left and/or right side

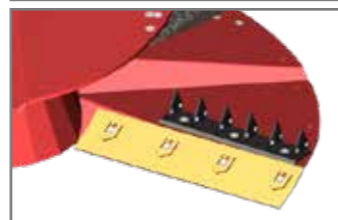

Vario² mixing auger
Due to the patented knife adjustment system, the Vario² mixing auger in stepped flight design can be perfectly adapted to your specific conditions of use. The adjustable bars at the start of the auger-flight and an adjustable cutting edge at the remover lead to all fodder components neatly being picked up.

The Strautmänn **magnetic system** (optional extra) directly mounted on the mixing auger offers optimum health protection for your high-yield cows.

Special knife options help you to adapt your Vario² mixing auger in stepped flight design even better to your needs:

The **bale knife** is perfectly suitable for cutting bales.

For fodder rations containing e.g. beets or potatoes, the **root crop knife** ensures better mixing and additional crushing of the ingredients.

Optional „**INNODUR**“ wearing elements significantly extend the service life of the Vario² mixing auger in stepped flight design.

Technische Änderungen vorbehalten

Easy discharge

- Discharge via side doors
- Left and/or right
- Loose and homogeneous fodder swathe
- the eccentric position of the discharge openings ensures optimum fodder discharge.

Ladder

- Galvanized for long durability
- For easy addition of feed components

Operating options

- Direct tractor connection (standard)

For more comfort:

- Bowden cable (option)

or

- Electrical control set (option)

Weighing devices

- PTM HL 50
 - Management of 50 recipes from up to 30 components
- EZ 2810
 - Adding scale
 - Standard with Bluetooth antenna:
 - Free Feed App
 - Rations can be saved on smartphone
 - Feed report can be sent by e-mail
