

Twice the knife service life!

**We tested:** Replica forage wagon knives compared to Strautmann original forage wagon knives  
**Test setup:** In a Giga-Vitesse 4001 D0, 8 cutting knives were replaced by replica parts.  
 After 360 transpoted loads we evaluated the result:

## REPLICA

6 knives prematurely defective

- knives bent
- knives broken

Intensive wear

- Frequent change of knives
- Worse cutting quality
- Dangerous metal in the fodder!

## STRAUTMANN GENUINE PARTS

All knives undamaged!

Hardly any traces of abrasion

50% less wear

- Cost-effective
- Consistent cutting quality
- Reliable & durable
